

Expertise in Handling Hot Materials

We are Designers & Manufacturers of various conveyors & material handling equipments in forging industries. Also we deal with industries in Steel pipe, PVC pipe, Agriculture, to meet their material handling & other special needs.

*S*IDDHA PERFECT SYSTEMS PVT. LTD. (SPSPL), PUNE was established in the year 2007 with one focused ambition to become the best provider of Conveyor products in India.

The Company SPSPL, PUNE has been engaged in manufacture of highly engineered Conveying Products and Special Purpose Machines for the Forging Industry, Steel Processing Plants, Plastic Processing Unit and various Original Equipment Manufacturers (OEM's).

SPSPL technical prowess lies in the resourceful, dynamic engineers manning the Design and Engineering activities. Latest Software such as PRO-Engineer, are used for 3-D modeling and optimizing the technical parameters.

SIDDHA PERFECT SYSTEMS has self-owned premises 5000 sq.ft. area usable for Fabrication, Assembly and Trials.

Manufacturing facility is equipped with necessary Machinery and team of experienced, skilled operators, suitably assisted by semi-skilled and unskilled manpower. The in-house manufacturing efforts are adequately supported by a team of large number of Vendors for specialized processes.

Our Solutions will be seamless and perfect,
Automation to fulfill the needs of today's ever-changing industry

No-Compromise Expertise

Our products are manufactured using special, extremely high quality materials and also processed with extreme care.

We are committed to satisfy our customers by

- a) Continual improvements in design & manufacturing processes
- b) Delivery on or before committed date
- c) Desired quality as per customer-approved Quality Plan
- d) Optimum price
- e) By ensuring Safe working environment

Well-known skill

Our experience, extensive market research and sharp technical know-how, will ensure growth commitment by offering a quality product and service that exceed the customer's expectations at a profitable and practical cost.

These skills and quality products helps us to provide to the ever growing needs of our clients.

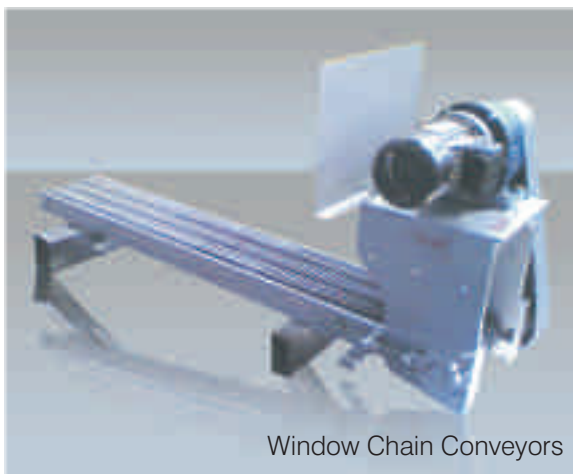

OPTIMUM RESULTS!
we want you to be satisfied.

Billet Feeder

Window Chain Conveyor

Window Chain Conveyors

Chain conveyors

In this type of conveyors, Standard industrial roller chains of TI DIMOND, ROLON make are used for carrying the material.

Chain Belt

Wiremesh belt

Slat Belt

OPTIMUM RESULTS!
always there for you.

Conveyor Control Panel

Cooling Conveyor

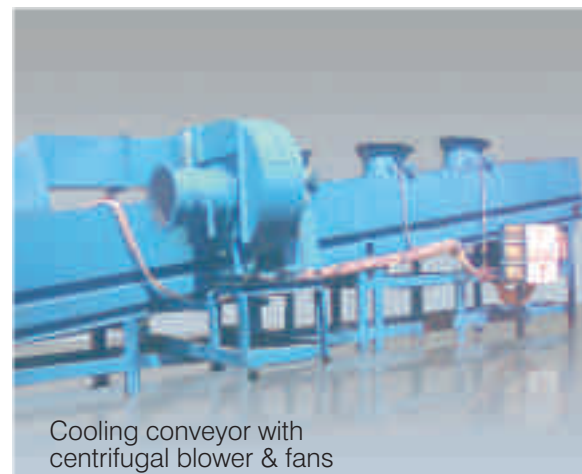

Conveyor with fans

Slat conveyor
after trim press

Slat conveyors

Slat is a carrying member in slat conveyor. Slat conveyor consists two or no. of chain strands depending upon size and weight of material to be carried. These chains are special chains with attachments to mount slats. Slats can be manufactured in M.S., S.S, Wood, Nylon, PP etc.

Cooling conveyor with
centrifugal blower & fans

Honeycomb Belt

Single Strip Honecomb Belt

Double Strip Honeycomb Belt

OPTIMUM RESULTS!
develop new processes quickly.

Die Lubrication Spray Unit

“Die Lubrication Spray Unit” is specially developed for forging industries. All features are meticulously designed and selected to suit requirements of forging ambience. Low running cost due to optimum utilization of compressed air and valuable lubricant is the main feature of unit. Units are available in 100L, 200L, 400L capacity.
